# Hârnic Price List

COMPILED BY VAIDENON OF HUSTAN, WARDEN OF THE INKHORN FELLOWSHIP

*Goods of Hârn: every entry of the Fellowship's list of wares*

> "Every traveller who comes to the sign of the Inkhorn asks me two questions: where is the road, and what will it cost him. The first I answer in our gazetteer. This is my answer to the second, gathered from the published lists, the guilds' fair-price guidelines and a great many arguments in market squares. Its companion, the Hârnic Hire List, gives what is paid and not carried."

Prices are fair prices in a town market of Hârn for goods of average quality, new, made for a person of average size; weights are in pounds. Goods sold by measure show the measure in the name. Animals and slaves carry no weight. Wages and services are in the companion *Hârnic Hire List*. A small letter after an entry gives the source of its price (key below); the Fellowship has regularised many.

## COINAGE AND MEASURE

4 farthings (f) = 1 penny (d); 12d = 1 shilling (s); 240d = 1 pound (£). Prices of £10 or more are shown in pounds. A pint weighs about a pound, a gallon (eight pints) eight pounds; a hogshead holds 50 gallons. A bushel is a measure of volume: its weight is given with each good. A carat is 1/142 ounce.

## PRICE RATINGS

A shop, inn or merchant is rated by its prices (Inns of Hârn; Cities and Towns). Multiply listed prices by the factor; within a rating a buyer can haggle across the shop range.

| Rating | Factor | Shop range |
|---|---|---|
| Low | ×0.75 | 80–90% |
| Average | ×1 | 90–110% |
| High | ×1.25 | 110–130% |
| High+ | ×1.5 | 130–150% |
| Very high | ×1.75 | |
| Very high+ | ×2 | |

## QUALITY

Weapons: ×2 a step above average (core); armour, clothing and jewellery ×1½ a step above, any item ×¾ a step below. Instruments use five grades; complex instruments are harps, lutes, lyres, bowed and keyed instruments, organs, bagpipes and bells:

| Grade | Simple | Complex | Sindarin, Khuzdul |
|---|---|---|---|
| Poor (−2) | ×½ | ×½ | — |
| Inferior (−1) | ×¾ | ×¾ | — |
| Average | ×1 | ×1 | ×3 |
| Superior (+1) | ×1½ | ×3 | ×6 |
| Excellent (+2) | ×2 | ×8 | ×12 |

Live animals run from poor to excellent across the range shown.

## SELLING

A merchant buys at wholesale: 40% of value in a village or a lesser town (Tashal for furs), 50% in a town (Coranan), 60% in a great city (Aleath). A fence pays a quarter or less (see the Hire List). Second-hand goods are valued by their condition: good ×0.9, fair ×0.7, poor ×0.4.

## CLOTHIER: CLOTHING

*Cloth garments are cloth armour, but they do not stack: at each location, all the cloth worn counts as one layer (HârnMaster, Combat 5). Light garments alone (linen and silk, shirts, smocks, braies, hose, veils) give B1 only; one ordinary garment of wool, serge or russet B1 E1 P1 F1; two or more B2 E1 P1 F1; a heavy garment (pelisson, fur-lined mantle, oiled cloak) B2 E1 P1 F2, or B3 with another. Locations covered are shown in brackets. Wool is plain broadcloth.*

## EDITORIAL NOTE

This list sets down the Fellowship's prices as of November 2026. Where Columbia Games' articles differ, the Fellowship follows the more recent article, or the one that fits the rest of the economy: clothing is priced by cloth and sewing; meat follows Columbia's livestock articles; spices and costly dyes are the fan list's prices divided by four; vessels follow the *Pilots' Almanac*; inns follow *Inns of Hârn*. Everyday goods of about 1300 that no article prices are the Fellowship's own, argued from English records (so my Terran correspondent informs me) and scaled to these material and labour rates.

## CREDITS

Compiled by Vaidenon of Hustan for the Inkhorn Fellowship; set down by Lesli of Bifel and his homunculus, Claudin.

Prices from *HârnMaster*, *HârnWorld* and Columbia Games' articles, the fan price list (v7.32), the fan *Millers' Guild*, and the Inkhorn Fellowship.

Unofficial fan work; Hârn belongs to its publishers
